

Overview of the Program

Master's Program

- **Standard length: two years**
Long-Term Study: Working students may take up to four years, paying tuition for two years only.
- **Completion requirements**
 - study in the graduate school for at least two years
 - having earned at least 30 assigned credits
 - having received the required research instruction, master's thesis accepted, and passing an examination
- **Degree awarded**
Master's degree (in Biomedical Science and Engineering)

Doctoral Program

- **Standard length: three years**
Long-Term Study: Working students may take up to six years, paying tuition for three years only.
- **Completion requirements**
 - study in the graduate school for at least three years
 - having earned at least 10 assigned credits
 - having received the required research instruction, doctoral thesis accepted, and passing an examination (at least one basic research paper as the first author accepted or published in an English-language journal)
- **Degree awarded**
Doctor (in Biomedical Science and Engineering)

Notes (Master's and Doctoral Programs)

- **Scholarship information**
The graduate school does not have its own scholarship program. If you wish to apply for Japanese Government Scholarship for Overseas Research Students, inform the graduate school accordingly. For more information on the system, refer to the website below:

Japanese Government Scholarship for Overseas Research Students (Ministry of Education, Culture, Sports, Science and Technology website)

http://www.mext.go.jp/a_menu/koutou/ryugaku/06032818.htm
- **Educational programs**
In addition to the regular curriculum, the graduate school provides the Medical Physics Educational Program (including the Rare/Pediatric Cancer Biomedical Science and Engineering Program) and the Medical Device Development Program (only master's program). A diploma is granted to those who have completed the programs (See p.11).

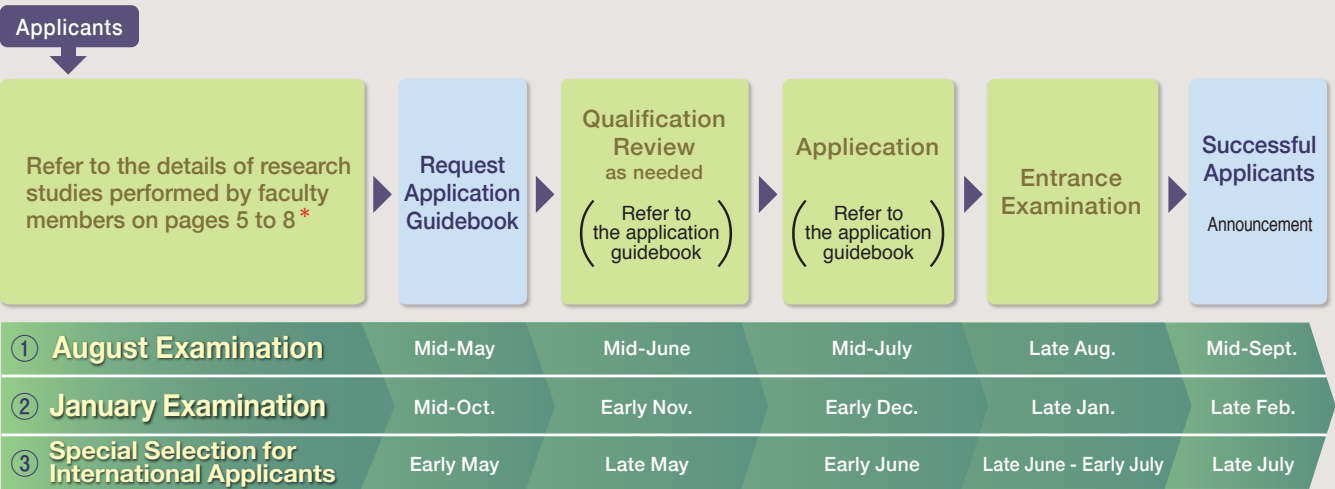

Fees

- Examination fee*: 30,000 Yen
- Admission fee*: 282,000 Yen
- Tuition fee: 535,800 Yen (per year)

There may be cases where the admission and tuition fees are changed.

*If you are expected to complete the master course of our graduate school and are going to apply for this doctoral program after master course completion or if you are a government-financed international student (person receiving MEXT Scholarship grants), you are exempted from this fee but must include a statement to this effect when submitting the application.

【 Examination Process Flowchart 】

* Finding a faculty member who hosts international students

- 1) Using Details of Laboratories and List of Faculty on the Graduate School of Biomedical Science and Engineering website for reference to search for a desired faculty member.
(A mismatch between the research of the faculty member and the desired research of the student sometimes occurs. Check the website and papers written by the faculty member carefully.)
- 2) Contact the graduate school
Send your Curriculum Vitae and previous studies as well as details of your desired research, study plan and faculty member to the Student Affairs Office of the Graduate School of Biomedical Science and Engineering by e-mail (d-tanto@med.hokudai.ac.jp).
Please visit the website below to get the form of Curriculum Vitae.
