

Graduate School of Biomedical Science and Engineering

Doctoral Program Curriculum Table

Category	Subject	Credit	Type
Common Required Subjects	Advanced Research on Biomedical Science and Engineering I	2	Seminar
	Advanced Research on Biomedical Science and Engineering II	8	Laboratory work/ Practical training
Elective Subjects	Clinical Medical Physics Training (Quality Assurance)	4	Laboratory work/ Practical training
	Clinical Medical Physics Training (Proton/Image-guided Radiation Therapy)	4	Laboratory work/ Practical training
	Clinical Medical Physics Training (Treatment Planning)	4	Laboratory work/ Practical training
